TOOL STORAGE

THE PROFESSIONAL'S CHOICE.

REMLINE®

56" Treadplate Tool Center

Heavy Duty Industrial Storage

- Heavy gauge, double wall steel construction, supports heavy loads.
- Full extension, heavy duty, ball bearing drawer slides on all drawers provide better performance and hold heavier loads.
- The extra deep chest and cabinet provide added drawer capacity, 3 to 4 inches of more storage space than average chests and cabinets.
- Full length, extruded aluminum drawer pulls.
- Top chest and roller cabinets lock with 2 tubular locks which are keyed alike (per unit) for greater security.
- Top chest includes 2 gas lifts in the lid which opens the lid with a turn of the keys.
- Rear locking mechanism, which runs the height of each unit, locks full-length drawers in at least two locations.
- Black powder coat epoxy painted body and silver-gray epoxy painted tread plate drawers provide a dynamic effect.
- Drawer liners are included.

17956 – 10-Drawer, 56" Tread Plate Tool Chest with Ball Bearing Slides

- Includes 2 tubular locks for greater security.
- 2 gas lifts raise the lid when top is unlocked.
- Large till area for larger tools - 2-13/32" deep.
- 4 large heavy duty steel carry handles with rubber grips for a two person lift for placement.
