

DIY TOOL CHEST & ROLLER CABINET COMBINATION

Chest/Cabinet Features Include:

- All drawers operate on full extension ball bearing drawer slides.
- Spacious till area in the chests is perfect for storing larger tools. Includes steel lid support bracket and a full length steel piano hinge.
- Chests are designed with double wall steel construction for greater strength and durability.
- Cylinder, key-coded locks and steel locking bars secure the contents.
- Roller cabinets include large, 4-inch casters—two with toe locks.
- Steel, tubular handle can be mounted on either side of the cabinet.
- Durable baked epoxy finish resists rust and solvents.
