

Storage Wall Shelves

Item No. WR14/WR14B

Installation Guide

Package Included:

(A) Parts Included:

Shelf Brackets
Left Side (2 pcs)

Shelf Brackets
Right Side (2 pcs)

Velcro (4 pcs)

1' x 4'
Wire Grids
(2 pcs)

Installation
Template
(1 pc)

Level
(1 pc)

(B) Screw Package B (2 packs)

Each contains:

x6

x6

x6
Ø8 Washer

(C) Tools Needed for Assembly:

Pencil

Power Drill

Tape Measure

Stud/Joist Finder

Ladder

Eye Protection

Wrench

Installation Steps:

STEP 1-A: Install Shelf Brackets into Wall Studs

Use a stud-finder to locate studs.

1. Decide the height and use template and level to mark the holes (The template is designed for studs 18", 24" and 32" apart). Make sure hole locations are level before drilling holes.
2. Drill 60mm deep holes with 3/16" drill bit.
3. Install the shelf brackets with washers (B3) and lag screws (B1) with wrench.

STEP 1-B: Install Shelf Brackets into Solid Concrete Wall

1. Decide the height and use template and level to mark the hole. Make sure hole locations are level before drilling holes.
2. Drill 60mm deep holes with 3/8" drill bit.
3. Screw in the metal expansion bolts (B2) firstly and then install the shelf brackets with washers (B3) and lag screws (B1) with wrench.

STEP 2: Place and Attach Wire Grids

1. As figure shown, buckle the wire grids on to the shelf brackets.

Firstly, buckle one side of wire grid onto the end of the shelf bracket.

2. Tighten the wire grid and shelf brackets with the velcros at the position shown in the figure.

⚠ CAUTION

- This product contains small items that could be a choking hazard if swallowed. Keep these items away from young children.
- Make sure these instructions are read and completely understood before attempting installation. If you are unsure of any part of this installation, please contact a professional installer for assistance.
 - The wall must be capable of supporting the combined weight of the garage rack and your stuff. Otherwise, the structure and weight capacity of the ceiling must be reinforced.
 - Proper tools must be used. A minimum of two people are required for this installation. Failure to install properly can result in property damage or serious injury.
 - Check joint parts every two months, making sure the screws have not loosened.
 - This product is designed to be installed on a wooden wall or solid concrete ceiling. Before installation, make sure that the weight capacity of the wall will support the combined load of the rack and your stuff. Never exceed the maximum load capacity of the product 99 lbs (45 kg), or else it may result in product damage or physical injury.
- Note: This product is intended for indoor use only. Use of this product outdoors could lead to product damage or physical injury.
