

STORAGE & ORGANIZATION

Steel Construction, Ready to Assemble (RTA)

Garage, Work Shop, and Laundry Room

The upscale design and the finish of this system will enhance the appearance of any garage or other area of the house or facility that needs durable storage solutions.

- Assembles in minutes.
- The unique design of these units reduces the number of fasteners required for assembly and all of the units assemble in minutes.
- All Steel Construction—no fasteners are visible from the front or sides of the units.
- Leveling Feet are included on floor models, adjustable from inside the cabinet.
- 3 Drawer Project Center has extra deep drawers, includes ball bearing slides which glide even when drawers are loaded.
